FOR IMMEDIATE RELEASE

“Green Scene” Offers Sustainability and Socializing

On Tuesday, April 20th, Citizens for a Healthy Bay, BCRA, the City’s Office of Sustainability, the Greater Tacoma Convention and Trade Center and Enviroissues are teaming up to hold Green Scene, a unique evening of sustainability education and networking.

Green Scene is intended to compliment other community events planned around the 40th anniversary of Earth Day on April 22nd. The event will run from 4:00 p.m. to 7:00 p.m. at the Convention Center and the focus will be on the benefits of environmental responsibility and social responsibility for both individuals and businesses.

Green Scene attendees will have the chance to visit numerous exhibits representing local businesses that provide environmentally responsible goods and services, environmental organizations, water and energy conservation programs and local businesses participating in Citizens for a Healthy Bay’s Businesses for an Environmentally Sustainable Tacoma (BEST) Program.

Those attending Green Scene will also have an opportunity to participate in "A Conversation on the Case for Business Sustainability" with Kathleen Sayce, ShoreBank Pacific’s Science Officer; Kevin Wilhelm, author and CEO of Sustainable Business Consulting; and Stuart Young, Principal and LEED AP for BCRA.

Refreshments will be available and admission is free.
