

The GTCTC Green Sheet

- ♻️ All paper, glass, and cardboard from all meeting rooms and administrative offices are recycled.
- ♻️ The kitchen also recycles all paper, cardboard, glass, metal and plastic products.
- ♻️ The cleaning products used in 90% of the building (all surfaces and floors) are environmentally friendly.
- ♻️ The GTCTC uses compact fluorescent lights and low wattage bulbs where appropriate.
- ♻️ We are a zero trans fat building, and we use local, organic and sustainable cuisine in many of our menus
- ♻️ The GTCTC Purchases Energy Star products when replacing equipment.
- ♻️ Building controls are programmed to turn off utilities in empty rooms to decrease energy usage.
- ♻️ Water saving devices for toilets and faucets are installed in all bathrooms.
- ♻️ The GTCTC has Eco-Friendly water saving landscaping.
- ♻️ The Convention Center recycles fleet's used oil, batteries, antifreeze and tires.
- ♻️ The GTCTC chooses promotional products with minimal packaging and recycled content.
- ♻️ The major art element "The Apotheosis" was created from recycled timbers that were razed from the building site prior to the facility's groundbreaking.
- ♻️ No chemical pesticides and herbicides are used in the facility.
- ♻️ We proudly serve Tully's coffee in the innovative ecotainer™ hot cup from International Paper which is 100 percent compostable and certified by the Biodegradable Products Institute (BPI).
- ♻️ The GTCTC encourages the use of public transportation.
